

February 2023 Gas Supply Charge

Effective February 1, 2023, the Peak Gas Adjustment Factor (GAF) will decrease from the current charge of \$1.7197 to \$0.4919 per therm. This decrease is the result of lower forecasted gas costs. The cost of gas is a straight pass through cost in which Liberty makes no profit.

Information about the adjustment, current rates, energy savings and assistance programs can be found at www.libertyenergyandwater.com.

If you are facing financial uncertainty, we urge you to call us at 1-508-883-9516 to discuss payment options and available assistance programs.

You can also visit our website and select "Energy Efficiency" under the "Natural Gas" drop-down menu for more information on energy efficiency programs and other savings tips.
